UAE urges anti-AIDS battle

ABU DHABI (Agencies) — The United Arab Emirates (UAE) Saturday called for a world-wide drive to combat AIDS, which Health Minister Hamad Abdul Rahman Al Madía branded "a threat to mankind." The UAE pledged its resources to support a global campaign against the killer disease. "We extend our bands, raily our efforts and pledge support to the scientists, the researchers and the medical teams who are sparing no efforts to discover an effective vaccine against this disease," he said in opening an international conference on AIDS attended by 149 specialists from around the world. "It beehoves us all to pursue all efforts, in collaboration with our brethren and friends in other countries and in cooperation with the World Health Organisation to stem its tide and control its spread." "Inter-personal relations and behaviour, which have emerged as the primary mode of transmission of this epidemic, have controls and limits in our religion," he said. The conference offers the first such open discussion in the UAE and the second in the Gulf. Kuwait sponsored an AIDS forum in February.

Cabinet okays oil accord annex AMMAN (Petra) — The Cabinet held a regular session Saturday under

Prime Minister Zaid Rifai and ratified an annex of the cooperation agreement signed with a Canadian government petroleum agency in the field of oil exploration. The annex provides for increasing the value of the agreement by JD 13 million and extending its validity until 1990. The Cabinet also ratified regulations on forming an Islamic court in Al Rwaished district, on a Public Security Department personnel welfare society, on organising the Ministry of Youth, on the Jordan Olympic Committee laws, on charitable federations, and on Water Authority of Jordan employees. The Cabinet also approved a law governing costs of treatment at hospitals and centres affiliated with the Ministry of Health. The law sets 400 fils as the price of every item of medicine available at the centres. Anti-fever medicines are exempt from this ceiling and will be available for 150 fils per item.

Israeli Arab diplomat clarifies remarks

ATLANTA (AP) - Israel's consul general in Atlanta, Mohammad Musarwa, has moved to defuse the controversy over his call for a "homeland" for the Palestinian people. "When I used the word "homeland," I did not mean an independent Palestinian state but rather a Jordanian-Palestinian confederation solution," Musarwa said Thursday. Musarwa, the first Israeli Arab ever appointed to a diplomatic post, used the term in a speech June 30 before the Atlanta chapter of the United Nations Association. "Neither Likud nor Labour are talking about a state or a homeland," said Yossi Gar. spokesman for the Israeli embassy in Washington, indicating that Musarwa's clarification indicated he had "no intention" of going beyond the government's present consensus.

U.N. awarded Palme prize

STOCKHOLM (AP) - The Olof Palme Memorial Foundation has awarded its Public Service Prize to the United Nations, and Secretary-General Javier Perez de Cuellar will collect the award later this year. Foreign Minister Sten Andersson, who also is chairman of the foundation, suggested Friday the 100,000-kronor (\$16,000) prize should finance studies of U.N. activities. The date for the prize ceremony was not immediately announced. Perez de Cuellar was due in nearby Oslo, Norway, for a Dec. 10 ceremony to receive the 1988 Nobel Peace Prize, which was awarded to the U.N. peacekeeping forces Thursday.

Top Vietnamese revolutionary dies

BANGKOK (AP) — Truong Chinh, one of Vietnam's veteran revolutionaries and former head of its Communist Party, died at the age of 81, the Vietnam News Agency said Saturday. The news agency said Chinh died at his Hanoi home Friday of severe hemorrhaging more than one hour after an accidental fall. One of the last of Vietnam's passing generation of communist revolutionaries, the hardline Chinh was replaced as general secretary of the Communist Party in December 1986 by reform-minded Nguyen Van Linh. He was since served as an advisor to the party.

Mulroney seeks new mandate in November

OTTAWA (R) - Conservative Canadian Prime Minister Brian Mulroney, putting his controversial free trade agreement with the United States on the line, Saturday announced a general election for Nov. 21. Mulroney's widely-expected announcement came two days after the latest public opinion poll showed that the Conservatives could win a majority over the opposition Liberals and New Democratic Party. The prime minister made the announcement after emerging from a brief meeting with Canada's Governor General Jeanne Sauve who formally granted him permission to dissolve

U.S.: Arafat has not applied for visa

WASHINGTON (AP) - Palestine Liberation Organisation (PLO) Chairman Yasser Arafat has not applied for a U.S. entry visa for attending the U.N. General Assembly, the State Department said. Department spokeswoman Phyllis Oakley Friday also told reporters she was not aware of any recent consultations on the matter between the State Department and major U.S. Jewish organisations opposing a visit by the PLO leader. Oakley said there would be no comment on how the government would respond if Arafat should apply for entry.

Israeli mission upgraded in Warsaw

WARSAW (AP) - Israel's diplomatic mission in Warsaw dropped formal links with the Dutch embassy and became independent Friday. Israel had been operating a separate interest section in Warsaw since September 1986, but until now it was officially linked to The Netherlands embassy because Israel and Poland do not have full diplomatic relations.

Oslo police arrest 4 Palestinians

OSLO (R) - Four Palestinians and a Syrian have been arrested in Norway on charges of entering the country under false pretences, Oslo police said Saturday. Inspector Tor Skrivarhaug, who led the operation, was quoted by the daily Aftenposten as saying police suspected that the five men intended to build an underground group linked to the Palestine Liberation Organisation (PLO). The Arabs, said to be in their early 20s, have not been named. Police said they were arrested several weeks ago.

Papandreou well after heart surgery

HAREFIELD (AP) - Greek Prime Minister Andreas Papandreou was reported in satisfactory condition Saturday after successfully undergoing a heart operation, his surgeon said. The 69-year-old Greek leader remained in Harefield hospital's intensive care unit following the six-hour operation, according to Dr. Magdi Yacoub, who led the surgical team.

Strike in Armenia cost \$45 million

MOSCOW (AP) - Ten days of strikes in the Armenian capital of Yerevan triggered by ethnic strife have cost the country 25 million rubles (\$45 million) in lost production, the official Soviet news agency TASS said Friday. Hundreds of thousands of people have been demonstrating and participating in general strikes in the southern Soviet republic, demanding annexation of Nagorno-Kara-

Benn challenges Kinnock for leadership

LONDON (AP) - The Labour Party starts its annual convention Sunday with a leadership challenge by Tony Benn, doyen of the radical left, that has reopened divisions in the socialist movement. Nobody doubts that party leader Neil Kinnock will shrug off the bid by Benn, a former energy secretary whose opposition to capitalism mirrors Prime Minister Margaret Thatcher's crusade against socialism. But Benn's six-month campaign has underlined the divide between moderates and radicals and forced Kinnock into reaffirming Labour's pledge to ban nuclear weapons — a vote-losing policy he had tried to dump. Benn, 63, an aristocrat who renounced his hereditary title, sees his challenge as the last chance to block major proposed policy changes which will shift Labour towards the centre.

Bonn: No radiation from Soviet satellite

BONN (R) — The nuclear core of an errant Soviet satellite has broken free into an orbit in outer space and will pose no radiation threat anywhere on earth, the West German government said Saturday. The non-radioactive payload of the Cosmos 1900 satellite was likely to burn in the upper atmosphere during Saturday and would not be passing over any European country during that time, the Interior Ministry said. It said West German researchers determined that the Cosmos' nuclear reactor automatically separated from the satellite's main body at 2100 GMT Friday and settled into an orbit of 800 kilometres above earth. The Soviet Union denied earlier there would be any danger of radiation from the rogue satellite when it finally reentered the atmosphere. Ground control of the orbiting Cosmos 1900 was lost several months ago.

Iraq, Iran cautiously optimistic over talks

UNITED NATIONS (AP) — The Iranian and Iraqi foreign ministers offered no hint of progress in their deadlocked peace talks, but both expressed cautious optimism about the negotiations on the eve of their face-to-face meeting Saturday.

Secretary-General Javier Perez de Cuellar was to advance proposals in an effort to break the stalemate, said Greek Foreign Minister Karolos Papoulias, who met separately with the two foreign ministers Friday.

Perez de Cuellar and his special representative to the talks, Swedish U.N. Ambassador Jan K. Eliasson, also held separate meetings Friday evening with Iraqi Foreign Minister Tareq Aziz and Iranian Foreign Minister Ali Akbar Velavati.

The four were to meet Saturday afternoon for the first round of direct talks between Aziz and Velayati since the last series of stalemated negotiations ended in Geneva Sept. 13. The meeting was be held under airtight security.

When the Geneva talks halted, Iraq demanded that the next step

must be that the Shatt Al Arab waterway dividing the two countries be cleared of sunken ships and silt so it is navigable again. The waterway is Iraq's only outlet to the Gulf.

Iran insisted that the remaining provisions of Security Council Resolution 598 of 1987 must be implemented before other issues are dealt with.

The two belligerents have observed a truce since Aug. 20, the first provision of Resolution 598. Five days later, the two countries opened the peace talks, another provision of the resolution.

The remaining requirements of 598 call for withdrawal of forces to the border, which is generally where the forces are now located; exchange of prisoners of war; continued peace talks to settle their differences; and appointment of an impartial commission to apportion blame for the outbreak of the war.

Papoulias said after his meetings with Velayati and Aziz Friday that he discussed the war with both men.

A feast for 'culture vultures'

By Najwa Najjar Jordan Times Staff Reporter

AMMAN - Arab culture enthusiasts are in for a full agenda of activities this month according to the Secretary-General at the Ministry of Culture and National Heritage, Dr. Hani Al Amad.

A committee made up of three members from the Ministry of Culture and National Heritage, and four members from private cultural institutions in Jordan have been preparing a programme of plays, poetry readings, films and lectures in cooperation with cultural institutions throughout Jordan for the months of October and November.

The programme, which concentrates on mostly Arab and Islamic themes, is divided into two parts. Amad explained that the first part includes arts, poetry and critic "allowing an opportunity for the individual to excel in his field."

The second part includes research, studies and lectures to analyse the situations, and events of history. "The ideology behind the Great Arab Revolt, for example, or the intifada, and what they accomplished may be explored. he continued.

In addition, art and book exhibitions will be held and several Arab thinkers, poets and writers wil be invited to participate in the cultural season "as the committee sees it appropriate." Amd mentioned a well-known poet, Nizar Oabbani, as one possibility.

The programme. Amad said, is designed for all ages. Two of the six plays which will be presented during the season are for children. One of the children's plays "Jeha Wa Al Muhtal" concentrates on "Jeha's" personality and the changes which take place when "Jeha" is confronted by a swindler.

The plays are all written by local authors, who, Amad pointed out, attempt to transform Jordanian causes into Arab causes. Several Jordanian producers are putting on their plays for the cultural season: other than the plays of Hani Snobar and Salah Abu Ghanoum, the other plays which will be shown have been staged by three producers from the Ministry of Culture and National Heritage.

Amad was keen to stress that "any one in the private sector who produces a strong enough play will receive the ministry help in every way.'

All the activities of the Ministry of Culture and National Heritage will be presented to the public free of charge at the Royal Cultural Centre (RCC). After the Amman performances the plays will tour most of the Jordanian provinces "depending on the facilities available."

The recent showing of the pan-Arab play "Wa Qudsa" on Sept. 16 to 18 was part of the cultural season held by the ministry. "Wa Qudsa", written by Egyptian playwright Yusri Al Jundi and produced by Tunisian Al Mansuf

Crusaders' occupation of Jerusalem and the role played by Salahaddin, in order to make a comparison with the ongoing intifada in the occupied territories.

The play, which starred several actors well-known in the Arab World including Mahmoud Yassin from Egypt, Aziz Khayound from Iraq and Mohammad Mansour from Kuwait, was well-received by Jordanians, who were reported to have over packed the Royal Cultural Centre for the three showings.

The times of the activities of the Ministry of Culture and National Heritage and other cultural institutions will be printed in a national guidebook. According to Amad, the guidebook will be printed once a month and distributed to the cultural institutions. He pointed out that not all cultural activities in Jordan will be included since not all institutions filled the activities' forms the ministry distributed, "less than 10 per cent responded."

The ministry is also working on a museum guidebook, and a guidebook on all the literary personalities in the Kingdom. To date, the ministry has completed a guidebook on the various artists in Jordan.

Two of the magazines, the ministry used to produce will soon return to the bookstalls as well. "Afkar," a cultural magazine, known to most Jordanians in cultural circles for 20 years, was closed down in 1986 "partly for financial reasons," said

Former editorial director of "Afkar" Bader Abdul Haq noted the other reason why the magazine was removed from the bookstalls. According to Abdul Haq, the second to last issue of "Afkar" in 1986 had a short story written by Suhair Al Tal in which, "a couple of people claimed un-

acceptable language was used." In Tal's story "Al Mashnaga" she uses the word penis as literary symbolism." Issa Al Jarrara filed a lawsuit against Tal. After eight months in court, Tal was cleared and declared innocent. Presently the case has been moved to the higher court, no verdict has been reached to date.

When "Afkar" returns, Abdul Haq, whose two tenures lasted five years altogether, will not be the editorial director. He will be replaced by Favez Mahmoud, "I have asked Mahmoud not to make any drastic changes."

Abdul Haq said. However, he believes that changes are inevitable since all the subjects submitted to the magazine must be approved by the magazine's committees.

"Afkar" contained literary studies, reports on the literary and cultural situation in the Arab World, poetry, short stories, fine arts and articles on the intelectual subjects. Approximately 1500-2.000 copies were printed a month, 400 for the Jordanian market and the rest used as part | on safety matters while crossing

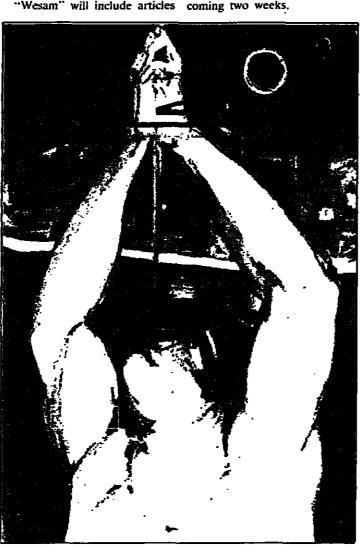

Amad pointed out that when "Afkar" returns, "all writers are welcome to contribute their

The other magazine is "Wesam," a children's cultural magazine. In 1983, "Wesam" printed four issues, before it was forced to fold, for financial and artistic reasons, "There were no proper writers or producers for a children's magazine," said Amad. He hopes that with the new board of editors, the magazine will fill a gap in children's

By Sana Atiyeh Special to the Jordan Times

AMMAN - From Irbid in the north to Agaba in the south, the Kingdom will celebrate Arab Child Day for nine days beginning on Oct. 3, when various activities for children and adults alike will take place under the slogan "the development and protection of children - a national priority."

Under the patronage of Her Majesty Queen Noor, the celebrations range from children's art exhibitions, different contests and entertainment to educational field trips, seminars and lectures. The activities aim to educate the public on the importance of child care and development, and improve and increase facilities and services for children in Jordan, according to a press release from the Noor Al Hussein Foundation (NHF).

The activities also aim to stress the importance of family participation in child development, along with concerned government sectors to support different institutions in this field. In addition, the programme's objective is to highlight the different ser-vices for children in Jordan and pinpoint the dificiencies.

During this celebration, some of the projects will be opened to culminate activities throughout the year, and to have children participate in serving the environment and society. These activities also aim to provide cultural, social and health awareness programmes, as well as entertainment throughout the nine days.

The celebrations are organised by the permanent preparatory committee, headed by the NHF Director In'am Al Mufti, and include representatives from SIX concerned ministries, other private, public and international

organisations. Children's art and book exhibitions will take place at public and for private and public school chilprivate schools, as well as United dren and scouts to encourage the Nations Relief and Works Agency for Palestine Refugees (UN-RWA) schools, and Armed Forces schools, where artwork surroundings, including the produced by children up to 15 years of age will be displayed.

Similar exhibitions will also take place at Abdul Hamid Sho-

Society around the country, the for children in remote and rural NHF centre in Aquba, in Mafraq areas of Jordan during these nine and Salt. Educational games will

Furthermore, several welfare be displayed in every governorate societies in different parts of the In addition to the exhibitions, country are to organise special artistic and theatrical performprogrammes on children for paances, as well as scientific contests will take place in different

Seminars and lectures on child development will take place in all governorates. The major seminar is on child abuse Monday at the Amman Chamber of Commerce, organised by the National Association for Child Education.

In addition to the seminars, Jordan television is to broadcast several programmes on children and for children, ranging from entertainment to previous symposiums on children. Radio Jordan will also provide children's programmes for this occasion. Monday, the first day of the

celebration, will include the following activities: - Poetry recital by three talented children at Abdul Hamid

Shoman Foundation at 5 p.m. Children's play, "Nus Nseis," at all branches of the Friends of Children Club.

 Workshop for kindergarten and elementary school teachers on the use of puppets at the Friends of the Children Club from 3:30 to 5:30 p.m. Teaching and education

dren Society at Baqa'a Refugee aides exhibition at Dar A Hadaneh Annahariah from 9 Also on this occasion, field trips for children will be orgaa.m. to 2 p.m. nised by schools and institutions.

There is an average of 30 to 40 activities around the Kingdom everyday for nine days. The full schedule can be obtained at Noor Al Hussein Foundation Headquarters in Amman.

Doctors, technicians leave for Sudan

New relief team to study locust plague in Sudan

AMMAN (Petra, J.T.) - Jordan Saturday dispatched its sixth mission of doctors and technicians with relief supplies and medical equipment to Sudan to help relieve the Arab African country from the consequences of floods.

deputised for His Royal Highness against the pest, according to a Crown Prince Hassan in bidding farewell to the mission which will replace another team of Jordanian doctors and technicians working at the Faqih Hashem region in Khartoum, an area badly ravaged by the recent floods.

The group includes doctors of medicine, specialists in environment, technical and agricultural engineers who will make a closehand study of the problem of locusts that had invaded Sudan

Health Minister Zaid Hamzeh viding Jordanian help in the fight spokesman for the Jordanian Committee for Solidarity with the Sudanese People.

He said that the team will acquire experience that would no doubt contribute to the Kingdom's own preparations to confront the danger of locusts The Jordanian team is carrying

schools.

The 16th Jordanian mission, sent to relieve the Sudanese peo-

relief supplies, and equipment for

15 tonnes of medical appliances.

famine, is still working at Al Kass Hospital in western Sudan, and will be replaced by the 17th mission on Oct. 10 at the latest.

Last week, reports spoke of millions of locusts invading the Sudanese capital causing extensive damage to crops. Earlier, torrential rains caused disastrous floods in Khartoum, and experts said the greening of normally barren desert areas created per-

fect breeding grounds for locusts. Last month Sudan's agriculture minister said the threat presented by the locusts had entered a critical stage, and his country lacked sufficient insecticides or equipment to spray all agricultural lands facing the invasion.

The mission which flew Saturday to Khartoum was seen off at the airport by committee's rapporteur Abdul Salam Al Abbadi lately and examine means of pro- ple as a result of the drought and and Health Ministry officials.

A Royal Jordanian Air Force carrier prepares to to study the plague of locusts which succeeded the take off as a new Jordanian team leaves for Sudan flood (Petra photo)

A prize well earned

CONGRATULATIONS to the United Nations peacekeeping forces for receiving the Nobel Peace Prize for 1988. It is a well earned prize, and belated recognition of the outstanding services that the United Nations peace forces have rendered for peace and security since 1945.

The first such peacekeeping effort by multi-national forces was right in our midst in the Middle East. It was in the aftermath of the Israeli-Arab war of 1948 that the world witnessed the first ever deployment of United Nations forces to supervise the armistice agreements concluded in 1949 between Arab states and Israel.

It is ironic that the most recent deployment of United Nations peacekeeping forces was also in the Middle East region, to supervise the ceasefire between Iran and Iran. Indeed. the services of United Nations forces between warring states has taken them to many other regions and continents. If their work is not finished, it is not the fault of the international

organisation itself or its peacekeeping function. The fathers of the United Nations Charter had envisioned a much broader resort to multi-national forces to preserve peace and stability world-wide. Unfortunately, the permanent members of the Security Council fumbled over this clear objective and prevented the creation of such a force to function as a war-preventive force at the disposal of the Security Council. What was rescued from the original idea (to make available to the United Nations a standing multi-national military arm) was the improvisation of U.N. peacekeeping forces. Even this modest force was plagued by superpower rivalry and defaults on the payments of contributions from U.N. member states.

But in spite of all constraints, the low-key performances of the U.N. peacekeeping forces have developed into a dimension of the U.N. system that has become indispensable. Scores have died in the line of duty.

And now comes the time to give them what they honourably deserve: Recognition from the Nobel Peace Institute, which reflected the conscience of mankind and bestowed on the men and women of the U.N. forces a prize in recognition of their endless and silent contributions to peace and security.

ARABIC PRESS EDITORIALS

ARABIC daily newspapers commented Saturday on the killing of civilians by Zionist settlers in the occupied West Bank town of Hebron and the protection given to the murderers by the Israeli troops. "The settlers and the soldiers are now in the same boat, and the resistance should be directed against either of them on equal footing, Al Ra'i newspaper said. The paper described the killing of two youths in Hebron as a murder in cold blood, committed in violation of all norms, laws and principles; and called on the international community to put an end to such atrocities. The paper was critical of the U.S. stand towards Israel's practices and said that Washington's criticism of Israel's use of plastic bullets was worth nothing. "Indeed, it has been the U.S. protecting umbrella that has been encouraging the Israelis to commit such atrocities and maintain a campaign of terror against the Palestinians," said the paper. "No one can be convinced that Washington has any credibility; as on the one hand, it denounces terrorism and continues to provide a protecting umbrella for Israel's inhuman practices on the other," the paper added.

For its part, Al Dustour said that the Hebron crime committed by Moshe Livinger, leader of the Gush Emunim extremist group of Zionist settlers, was part of a long series of atrocities committed by the Israelis in cold blood against the Arab population of Palestine. The settlers committed this new crime in the face of continued world-wide condemnation of Israel's practices including protests from the United States and Britain; and carried out by criminals in broad daylight and before the whole world, the paper noted. The new murders in Hebron, it said, marked a new phase of a terrorist campaign against the Palestinians of which Rabin and his aides are no more ashamed. What is required, the paper concluded is real pressure to be exerted on Israel by those very countries which have been criticising its actions and inhuman

Sawt Al Shaab Arabic daily commented on Israel's Foreign Minister Shimon Peres's attempts to improve Israel's image abroad at a time when war minister Rabin orders his soldiers to kill and injure as many Palestinians as possible. Israel is now presented in the minds of people around the world as a war machine bent on murdering innocent civilians struggling for their freedom, the paper said. Peres's call for what he named as "historic peace" with the Arabs is meant as a ploy to deceive the world when Israeli troops continue their inhuman practices against the Arab population of Palestine, the paper added. The world can hear the sound of bullets and the cries of women and children in Palestine louder than all of Peres's statements and false calls, the paper concluded.

ARABIC PRESS COMMENTARIES

Lesson from Taba

COMMENTING on news dispatched after the verdict over the Taba enclave, which quoted Israeli officials as saying that "Israel's acceptance in the first place of the concept of arbitration was a grave blunder because it took the whole question out of Israel's hands," Al Ra'i columnist Tareq Masarweh drew parallels between the arbitration and calls for an international peace conference over the Middle East. The writer quotes other officials as threatening to demolish the installations and hotels in Taba if they had to withdraw and others, as totally rejecting the verdict and pledging that they will never abandon Taba. "If this kind of response ensued after the panel's verdict over a 700-metre stretch of land which belongs to Egypt, what would be Israel's response or the Israeli negotiators' attitude on the future of the occupied West Bank, the Gaza Strip, the Golan Heights and southern Lebanon?" asks the writer. Masarweh cautions against harbouring false hopes about prospects of Israeli withdrawal and warns that Israel can only concede the loss of Jericho in battle once the Arabs decide to carry on the fight towards Nablus, and would not concede the fall of Nablus unless the Arabs were bent on pursuing the march to Acre.

Sunday's Economic Pulse

By Dr. Fahed Fanek

Floating at last

THE Central Bank has finally made the decision to float all interest rates on all forms of deposits. The decision was long overdue. It is good, however, that the decision was made at all while the market is still able to respond and show some results that could have been achieved if the decision was made earlier.

There is no doubt that increst rates will tend to go upwards, but to an extent no one can predict for certain at this point in time. The Jordanian dinar has now a mechanism to adjust to various circumstances, and to the mood prevailing in the market from time

Previously people were tempted to convert their savings to dollars and sterling pounds, not only to gain the eventual difference in exchange but also to earn higher interest. Capital flight was a logical response to the rigid regulations unnecessarily imposed on

the banking system. On the other hand the Central Bank was applying two contradicting policies, namely flexible exchange rates and fixed interest rates. These two policies were not compatible, because interest had to compensate the holder of a certain currency for the expected loss on exchange as long as he/she had a choice of

currencies to maintain. The dinar was deprived the means to defend itself against the inevitable decline of the exchange rate. After the floating, however, interest rate can rise to the level necessary to convince a reasonable depositor to keep the dinar as long as he/she can earn competitive interest rate without opting for a foreign currency. Expatriates will also find it feasible to put their savings in a dinar

Under the floating system, the Central Bank will no more impose a ceiling or a floor for interest payable or receivable on any form of deposit or from any credit facility. Commercial banks and financial corporations will be able to set their own prices according to the market indicators and their needs.

This should not mean that hard bargaining may take place

between the bank and each customer to agree on the rate. Banks operating under a floating system are required to publish their rates on weekly basis and those rates should be applicable to all customers without discrimination.

Interest rates are expected to vary, not only from one bank to another, but also from one deposit to another, in accordance with the amount and the duration.

The scale of interest rates of any bank should naturally accelerate with the amount up to JD 100,000 and with the duration from demand to two years. Deposits for more than JD 100,000 or for a term longer than two years can be left for negotiation.

Published scales of interest rates are a must if exploitation is to be avoided, and if the integrity of banks management and fair competition are to be preserved. Banks are called upon to advertise their rates immediately in the press, and display them prominently at all their branches to assure customers that they are

Although banks are free to set their own prices yet, in practice. rates will not widely vary from one bank to another. One or few leaders will make the rates and other banks will have to take them. Most likely the Arab Bank, the Housing Bank and Petra Bank will have a leading role in pricing which will be more or less dictated by

It is quite strange that a major decision such as floating of interest rates did not yet create the expected waves in the banking circles. Banks, financial corporation, the press and the business sectors are almost calm, or doing nothing to cope with the new environment. Perhaps they will make up and start doing their home work quickly. The management of a bank that fails to understand and respond properly to the new situation will cause untold damage to the bank's profitability. The difference between one bank and another is no more confined to the size of the balance sheet and the number of branches, it is efficiency and dynamism that will make WATCHING the Olympic Games can be quite a treat; it should be an inspiring experience too.

Quest for excellence

For the last two weeks or so, and since the 24th Olympic extravaganza started in Seoul, millions of people around the world have been living through a common and yet unique experience, namely the exposure to a rare outstanding footage depicting physical strength, grace, and meticulous precision; all being vibrant examples of the human will.

Still, in the context of human nature, there would be moments of frustration, deception, mistake, and jealousy. Achievement is the magic word which, at least momentarily, obliterates all other

It is an unequalled setting where those magnificent pictures, albeit the constant reminder of each competitor's own flag and affiliation, alienate traditional animosities and notions of violence. Although what we see is a series of competitions, highly charged with nationalistic emotions, each game on its own, is a friendly engagement that usually ends with a hand-shake, a smile, and a

Every night, while I watch those young determined athletes, most of whom do not speak the language of their rivals, I become more convinced that we, the human species, can better communicate. My reaction to what I see is an involuntary combination of innocent envy and awesome admiration. Then I go on to wonder how long and how much would it take a young person to excell in one of these games, and whether it is really impossible for my Jordanian compatriots to have a bigger share in such events.

The shortest cut, I believe, between a dream and a reality is the human will. I am impressed with this event, that I want to take the liberty, and on behalf of millions of spectators, to extend to all those involved in the Olympics, this time and every time, a warm hand-shake, a smile, and a promise not to cry except in joy.

Peacekeeping operations date back to U.N. beginning

By Anthony Goodman

UNITED NATIONS - United Nations peacekeeping operations, honoured Thursday with a Nobel Peace Prize, date back to the earliest days of the world organisation.

The first operation to be launched, and still going strong, was the U.N. Truce Supervision Organisation (UNTSO), established in 1948 to monitor ceasefires and armistice agreements between Israel and its Arab neighbours. It now comprises some 300 officers.

The newest operation is the U.N. Iran-Iraq military observer group, set up only a month ago to monitor the Aug. 20 ceasefire in the Gulf war. It consists of about 350 military observers and several force in Lebanon, formed in 1978 hundred military and civilian sup- to confirm the withdrawal of port staff.

U.N. peace-keeping takes two forms - observer missions and peace-keeping forces.

Observers are blue-bereted officers of various nationalities whose task is to check on alleged

violations of a truce or ceasefire. Peace-keeping forces consist of blue-helmeted regular army units, usually infantry battalions or force was UNEF I, U.N. companies, furnished by various Emergency Force I, stationed U.N. members. They are sup-near the Egypt-Israel border after ported as necessary by transport,

Iran, Iraq cautiously optimistic

(Continued from page 1)

On his way to meet the secretary-general, Aziz was asked if he was hopeful of a breakthrough in the deadlock. He replied that he was, but offered no specific reason for his optimism. After the meeting, Aziz was asked if there were any break-

throughs in the offing, especially on the Shatt Al Arab. Aziz said: "I don't want to make any hasty conclusions because we have not yet met the Iranians, and we will see if they have

Velayati, after his meeting with Perez de Cuellar, told reporters: "We do hope that during these talks that are taking place in New York, we could reach a tangible result, and we hope that we could reach a concrete conclusion for the implementation of the other provisions of Resolution 598."

No final verdict

WITH reference to your "news" item of Tuesday Sept. 13, 1988 (editor's note: the item was translated from the Arabic-language press) regarding the declaration of bankruptcy of the National Exchange Co. and its owners, we would like to point out the

- Although the Court of First Instance has declared the company and its owners bankrupt, but the fact of the matter remains that the declaration was announced in December, 1987. The decision has since been raised to higher courts for final judgment. Hence, your piece of news is in effect neither news nor

That decision came about 2 months after a law-suit filed by Al Rajhi Co. and not 2 years as you incorrectly mentioned. The ruling was passed in absence of the defendants who were not duly notified. The misnotification probated the relatively fast decision by the preliminary court.

- The court decision was published in two daily newspapers at the time, around the end of December 1987. The republishing of that verdict at this time. I believe, is motivated by adversaries in an attempt to sway the forthcoming verdict of the Higher Court of

- The Central Bank of Jordan (CBJ) has maintained that it is against the national interest to declare bankruptcy of the National Exchange Co. (refer to various interviews with Mr. Maher Shukri, deputy governor of CBJ, especially the latest with Al

- Creditors of the company have also held the view that bankruptcy of the company damages their chances of realising their rights. They have since applied through their solicitors to the Central Bank to be allowed to form a committee to run the company in cooperation with the owners. The request was granted and practical steps are being taken towards achieving that

aim. (Refer to Al Watan Kuwaiti daily of Saturday, Aug. 20, The B.B.C has carried out your news item (and of course that of Al Dustour's - Sept. 12, 1988) in it's Arabic service after the news in Arabic at 18:00 GMT on Sept. 13. The broadcast was repeated next day at around 04:15 GMT elaborating on it to insinuate that local companies are suffering as a result of the

"bad shape of the economy".

— Al Dustour has partly rectified its news item on Tuesday

- A company of the National Exchange's calibre that has served the Jordanian economy with uncommon distinction is entitled to all the help it could get to hopefuly surpass the difficult times it is going through.

Finally, we the proprietors of the National Exchange, in our endeavour to salvage the company, expect all assistance possible from responsible men of society such as yourselves. A company, we would like to re-assert, that has served as a corner stone in the exchange business under the directives of His Majesty the King.

KHARTOUM, Sudan (AP) - Reports published Friday by an Islamic political party said that weapons Israel flev. into southern Sudan helped rebels win control over two strategic towns this month. The newspaper Al Raya, the paper of the National Islamic Front, quoted an unidentified "informed security source" that "big quantities of arms and ammunition recently were transported from Israel to the rebels in south Sudan.' The report came two days after the Sudanese army accused "regional and international quarters" of aiding the rebels. Al Raya's source said the supplies, flown in via neighbouring Kenya and Ethiopia. enabled the southern rebels to capture Katre and Kiala, which the army was admitted losing.

U.S. denies negotiating hostage release

CHICAGO (AP) - President Ronald Reagan denied Friday that the U.S. government is negotiating a hostage release with Iran, but said his administration is "doing everything we can" to win their release. Responding to a published report in a Middle East newspaper, which said a deal is in the works possibly as soon as Oct. 7. Reagan told reporters, "we have no direct negotiations, or have we had, with Iran, at any time, in this."

U.S. House rejects Senate sanctions bill

WASHINGTON (R) - The House of Representatives Friday rejected Senate efforts to impose trade sanctions on Iraq and to delay a U.S.-Chinese satellite launching pact until Peking pledges not to sell missiles to five Mideast nations. The provisions had been adopted earlier as amendments to a bill providing \$14.3 billion for foreign aid and other programmes. The bill went back to the Senate. The Reagan administration had opposed the provisions and a third limiting diplomatic immunity for foreign diplomats and threatened a presidential veto of the bill. The Senate called for the Iraq sanctions because of alleged use of poison gas against the Kurds, an allegation that Iraq strongly

Kabul accuses Pakistan of aiding rebels

UNITED NATIONS (AP) - Afghanistan Friday echoed Soviet criticism of alleged sheltering, training and arming of Islamic rebels who allegedly still launch raids from Pakistan. Provision of "modern weapons, including Stingers, long-range artillery and mortars and ground-to-ground rockets to the extremist opposition groups and their transfer to Afghanistan is continuing," said Foreign Minister Abdul Wakil. The United States "is still continuing the dispatch of weapons and equipment to armed extremist groups," he said, accusing Pakistani militias of joining attacks in Spin Boldak, and the provinces of Kandahar and the Kunars. Pakistan's "centres of training, arming and equipping of armed extremist groups on its territory have not been disman-tled," Wakil said in his speech to the 43rd General Assembly.

Dutch foreign minister to visit Iran

UNITED NATIONS (AP) - Netherlands Foreign Minister Hans van den Brock has accepted in principle an invitation to visit Iran, a spokesman for the Dutch mission to the United Nations said Friday. Iran's foreign minister, Ali Akbar Velayati, extended the invitation Thursday when the two foreign ministers met privately, said spokesman Peer Janus. No date has been set for the visit, he

Uganda delays lifting aid to Sudan

KAMPALA, Uganda (AP) — Uganda Airlines has delayed plans to ferry U.N. emergency food aid to drought- and war-ravaged southern Sudan after rebels shot at a Boeing 707 carrying passengers and relief goods, an airline source said Friday. Elsewhere, Sudanese rebels claimed Sudanese government troops in southern Bahr El Ghazal province had confiscated emergency aid donated by the International Committee of the Red Cross and were selling it at "exhorbitant" prices. The U.N. World Food Programme was preparing to airlift the food from Uganda's airport at Entebbe to Juba in Sudan's southern Equatoria province because rebel attacks in southern Sudan have made delivering emergency supplies by truck too dangerous.

Libyan-Tunisian relationship brings tourists, trade, contacts

By Jonathan Wright

TUNIS — An influx of Libyans into Tunisia has brought new sounds, sights and economic benefits to this north African

A Libyan-Tunisian rapprochement means, for example, that the voices of both Tunisians and Libyans can be heard on local phone-in programmes here, and that the streets of Tunis are full of cars bearing Libyan revolutionary green numberplates.

Since the two neighbours restored relations last December. Libvans have been swarming across the border in hundreds of thousands, mostly for pleasure.

And tens of thousands of Tunisians have gone to Libya in search of work or business opportuni-Hotels are full on the island of Jerba, close to the Libvan border. Tunisian car repair shops in the

south are doing a roaring trade with Libyans who may have waited months to get their vehicles fixed at home, travellers say. Libyan truckers have been cleaning out the fruit and vegetable markets in the south and

going straight to the farmers, driving up prices as far north as

the capital, the travellers add. In Tunis itself, up to one car in 10 in any line of traffic may bear the distinct green Libyan plates. Most are from the western regions of Libya but some are from Benghazi, a 1,600-kilometre

The Tunisian government estimates that one million Libyans will visit this year, compared with 7,000 in 1987. The amount they are spending has already helped bring Tunisia's foreign reserves up to record levels, according to official figures.

Speaking same language

Politically, relations could hardly be more friendly given the profound contrast between a Tunisian government committed to Western-style multi-party democracy and a Libyran leadership which maintains that such systems are a sham.

"Now we speak the same language, draw the same analysts and we have the same preoccupations... there's enormous potential for historic action," said Major Abdul Salam Jalloud, Libyan leader Muammar Qadhafi

second-in-command, during a visit to Tunis last week.

Tunisian officials avoid rhetorical flourishes of this type but none have shown any hesitation in accepting the embrace of a country which Tunisia's Western allies continue to distrust and with which former Tunisian President Habib Bourguiba broke relations in 1985 after a long dispute over migrant workers.

Libya had demanded that Tunisian workers in Libya accept "Arab" or Libyan nationality and expelled tens of thousands who refused. Many lost all the money they had saved and all the valuable goods they had bought during their stay in Libya.

Notices have appeared in the Tunisian newspapers over the past month inviting the expelled workers to present their receipts at border posts for compensation. Dependants of Tunisians who worked in Libya have also received pensions and other benefits previously denied them.

President Zine Al Abidine Ibn Ali, who removed the aged Bour- previously disputed continental guiba from power last November, shelf.

protrays the rapprochement with Libya as part of a Tunisian initiative to unite all the Arab countries of Northwest Africa.

"It was we who had called for a Maghreb without frontiers. For us, that's a long-term objective, a project which really arouses popular approval," he said in a French newspaper interview earlier this month.

Although Ibn Ali has denied there is a commercial motive behind the friendship with Libya, diplomats from Western and some Arab countries say they are worried that the financial benefits might lock Tunisia into a Libyan stranglehold.

Apart from the revenues from trade and tourism, Tunisia stands to receive substantial sums from an oil-sharing deal with Libya earlier this month.

Under the deal, 10 per cent of the income from Libya's Bouri offshore field will finance joint Libyan-Tunisian projects and the two countries will develop in partnership a nearby area on the

'Jordan's breakaway from the West Bank fostered PLO's representative status'

Egypt condemns repressive Israeli acts against Palestinian uprising

UNITED NATIONS (R) - Egypt condemned Friday Israel's "escalating acts of repression" against the Palestinian uprising in the occupied territories and said they were futile.

question has witnessed attempts aimed at imposing a fait accompli and at entrenching Israeli occupa-tion," Egyptian Foreign Minister Esmat Abdul Meguid said in a

speech to the General Assembly. Nevertheless, the Palestinian uprising (intifada) defied all forms of suppression and coercion. The heroic Palestinian people, out of their firm belief in their just cause, have succeeded in imposing recognition of their existence and in gaining world-wide support for their national rights." Abdul Meguid said the Palestinian

"In recent years, the Palestine people had made it impossible to return to pre-uprising conditions.

"So, the escalating acts of repression perpetrated by the Israeli occupation forces are futile," he They contravened internation-

al law, the Geneva conventions and human rights, and were strongly condemned by Egypt as they had been by the entire international community. He said last July's decision by

Jordan to sever legal and admi-

tine Liberation Organisation (PLO) in implementing decisions of the Arab summit.

"In its capacity as the sole legitimate representative of the Palestinian people, the PLO has responsibility of the occupied territories," Abdul Meguid said.

International support for a Middle East peace conference under United Nations auspices was one of the basic tenets on which Arab and international political action to resolve the Palestinian problem was based. he said.

Without referring to Israel by name, he said:

"Now-confrontation of facts, nistrative links with the West non-admission of the inherent na-

sentatives and disregard of the national rights of those people, foremost among which is their right to self-determination - all will keep this conflict unresolved consequently assumed the prime and will lead to far-reaching con-

sequences in the region." He said it was high time "various parties" took historic and courageous decisions to overcome the obstacles to peace.

He welcomed statements by Palestinian officials emphasising the PLO's willingness to negotiate a peaceful and lasting solution to the Palestinian problem and for a mutual and simultaneous recognition of Israel.

"I also wish to commend the peace-loving forces in Israel on Bank was aimed at fostering the ture of the conflict, persistent representative status of the Pales- disregard of the Palestinian peo-

Britain, Iran resume diplomatic ties

By Barry Schweid The Associated Press

UNITED NATIONS - Britain announced Friday a resumption of full diolomatic ties with Iran, accelerating an improvement in Western relations with the fundamentalist government in Tehran

"Both sides have decided to resume full diplomatic relations on the basis of reciprocity and mutual respect," British Foreign Secretary Geoffrey Howe said after meeting with his Iranian counterpart, Ali Akhbar

Velayati, referring to negotiations under way in Geneva between British and Iranian representatives, said some details remained to be worked out.

In London, Iranian Charge D'Affaires Mohammad Basti, the only accredited diplomat from his country in Britain, said, "full diplomatic relations are to be restored and we hope it will be at ambassadorial level."

Britain pulled its diplomats out of Tehran last year after one of its envoys was beaten and kidnapped in apparent reprisal for the arrest in Manchester of an Iracharges.

The diplomat, Edward Cha- be restored quickly. He said "we his abduction in Tehran on May 28, 1987. Britain accused Iran of unacceptable behaviour and downgraded relations to caretaker status on June 18, 1987.

While the two countries did not break diplomatic relations, their ties were severely strained and only the Iranian charge d'affaires was allowed to remain in

Basti indicated relations would

plin, was released 24 hours after are making some final consultations with our side in Tehran and on your side, and that's all.'

Howe, in a brief session with reporters in a U.N. corridor, said there was "no connection between the decision and any other matters.

He apparently referred to Terry Waite, an envoy of the Anglican Church who vanished while on a mission to Lebanon, and two other British hostages.

Secretary of State George Shultz said there was evidence Iran wanted to move toward a more normal position around the world.

However, Shultz said, any U.S. settlement with Iran required an end to the Iran-Iraq war, an end to terrorism and the release of Americans held hostage in Leba-

non by pro-Iranian groups. "There is no change in the situation as far as the United States and Iran is concerned.

UNIFIL: A mission impossible?

MAJDAL ZOUN, Lebanon (AP) — Hours after the Nobel Peace Prize was awarded to U.N. peacekeepers, six rounds of hill behind a U.N. observation post here.

"It's just part of our job," said Lt. Arjun Sapkota, 29, of Nepal, who said being shot at is not an unusual experience in south Lebanon. The 5.800 soldiers stationed near this south Lebanese village with the United Nations' Interim Force In Lebanon undoubtedly have one of the most nian consul on shoplifting difficult missions of the seven U.N. forces sharing the prize.

supervise the withdrawal of an war. Israeli invading force. But the Israelis haven't fully withdrawn, machine-gun fire blasted into the and UNIFIL is sandwiched between them and a myriad of militias that have sprouted in

> "It has seemed a mission impossible at times," said Lt. Col. Gerry McMahon, of Ireland, UNIFIL's senior operations officer and a veteran of U.N. peace missions in Zaire, Cyprus, Syria and Lebanon.

Still, he said, UNIFIL has made a difference in a country ly contribute to the force.

They were deployed in 1978 to factionalised by 13 years of civil

"If UNIFIL didn't exist here, this place would be a battlefield." McMahon said. "We have been a stabilising influence in southern Lebanon.

UNIFIL troops, headquartered in the southern town of Naquora, can be distinguished by their pale blue helmets and berets and the blue and white banner that flies above their observation posts and roadside checkpoints. Nepal, Fiji, Ireland, Ghana, Finland, Norway, Sweden, France and Ita-

CONTINUED FROM PAGE ONE Gorbachev elected president

(Continued from page 1)

Moscow Communist Party leader Lev. N. Zaikov said Gorbachev had been endorsed by the Preasidium of the Supreme Soviet and the Central Committee of the Communist Party. He was elected unanimously by

the Supreme Soviet. Gromyko, a Communist Party and government stalwart from the time to Josef Stalin through the first several years of Gorbachev's reforms, retired from the ruling party politburo Friday, and his resignation from the presidency had been expected.

His five-minute farewell address was greeted with

thunderous applause.
"The star of socialism since October 1917 has constantly shined and given light," he said.
"Thank you comrade deputies for the trust you've granted me in the past and now. I have very deep respect for it," he said. He stressed the need for unity in the

party leadership. Gromyko then returned to his seat on the dais facing the deputies of the nation's parliament. He sat expressionless and abstained from the vote that re-

moved him from office. Acting on Gorbachev's recommendation, the Supreme Soviet named Anatoly Lukyanov vicepresident. He replaced Pyotor Demichev, who was stripped of his candidate membership on the politburo in Friday's central committee meeting.

Lukyanov was named a candidate member of the politburo at

The Supreme Soviet also named Vladimir A. Kryuchkov to be the new head of the KGB secret police. He replaced Viktor M. Chebrikov, who was named a secretary of the party Central Committee in charge of legal and judiciary affairs.

Gorbachev Friday also obtained the resignations of a pair of other holdovers from the era of President Leonid I. Brezhnev — full politburo member will put him in an almost impre gnable position, analysts said.

Dolgikh.

the Kremlin number two and a conservative rival to Gorbachev, apparently was demoted Friday. He was moved to the Central Committee's agriculture portfolio although he retained his politburo status.

lai Ryzhkov was the appointment of 59-year-old Alexandra Biryukova as a deputy prime minister in charge of light industry and consumer affairs. Biryukova, promoted Friday to

become a candidate member of the politburo, is the first woman to reach the higher echelons of the Kremlin power structure for some 30 years. Another old-time figure, 76-

Alexei Antonov, was retired and replaced as permanent Soviet representative to Comecon, the Communist bloc economic grouping, by Nikolai Talyzin.
Talyzin, 59, is a candidate

while appointing him to the new post, the Supreme Soviet demoted him from first deputy prime minister to deputy prime In his 10-minute acceptance

Survey shows credit worthiness of world debtors at lowest point

NEW YORK (AP) - International bankers' confideace in the creditworthiness of the world's debtor nations has sunk to a 10-year low, according to a survey by an American financial magazine.

Every six months, Institutional Investor magazine asks about 100 international commercial banks to rank the creditworthiness of 112 nations on a scale of zero to

No. 1 in the magazine's latest September survey is Japan, with a rating of 94.8, followed by Switzerland (93.9), West Germany (93.1) and the United States (89.7). At the bottom of the heap in 111th and 112th places are Nicaragua, with a 5.2

rating and North Korea, 4.5. The average rating of all 112 nations, Institutional Investor says in its September issue, hit an all-time low of 38.7" in its

September survey. "The new global low is the

lion to foreign banks, govern-ments, international credit institutions and other global creditors. The total debt continues to grow as the debtor nations fall further behind on their payments of principal and interest.

Institutional Investor notes that in its September survey that except for "the lingering effects of lower oil prices on such oil exporters as Algeria, Nigeria and Trinidad, the upticks and downticks largely reflect unique domestic issues — a country's handling of debt or trade or ethnic disputes."

"Various forms of unsatisfactory fiscal management diminished the ratings of the United States as well as Australia, New Zealand, the Nordic countries and Argentina. The handling of economic reform burt Peru and Hungary. And good economic statistics boosted South Korea and Mauritius.

'On a region-by-region basis, North America showed the biggest move, falling a full point, and Eastern Europe dropped 0.8

"While the decliners included some heavyweight countries the United States, China, Nigeria and Brazil - the rises occurred in such places as Nepal, the Seychelles and Swaziland. And these gainers show few signs of enduring strength. Libya, for example, became the biggest gainer largely by staying out of mischief.'

The monthly magazine quotes one banker as saying that global "creditworthiness is likely to continue its downward drift until bankers are convinced that there is an end to fiscal irresponsibility in the industrial countries and an answer to ruinous debt obligations in the developing world.

Jordan enforces rules on moneychangers

By Rana Sabbagh

AMMAN - Central Bank of Jordan (CBJ) Governor Hussein Kasim said new foreign exchange rules restricting moneychangers' operations took effect Saturday.

"As of today moneychangers have to respect the central bank measures," Kasim told Reuters. "We will not reverse the rules. We will pursue efforts to ensure that moneychangers have abided by the regulations and check if

accounts in banks outside Jordan," he said. The 75 or so exchange com-

they have closed all their

central bank in June, and had been given more than three months to comply.

Exchange merchants surveyed by Reuters said they had obeyed the new rules, but predicted the measures would further weaken the dinar, create a black market and reduce remittances from nearly 350,000 Jordanians working abroad.

We have respected the rules

Jordan," said exchange dealer Ghazi Al Saudi, displaying documents to that effect from several European banks.

by closing our accounts outside

Moneychanger Makram Al Alami said: "We have adhered to

restrictions announced by the the central bank will review

The rules, aimed at curbing the outflow of foreign currency and bolstering the dinar, bar moneychangers from accepting

deposits, extending loans, mak-

ing transfers, issuing cheques abroad, opening accounts overseas and speculating in international equity, metals or commodi-

They may now have foreign currency accounts only at local banks. Unlike the banks, they need not abide by exchange rates posted daily by the central bank. Kasim reiterated that he had

panies had protested against the the rules, but we hope and expect told central banks in Arab countries and around the world that accounts held or opened by Jordanian moneychangers abroad

were illegal. Jordanian embassies had warned expatriates in the Gulf and elsewhere not to remit money home through

moneychangers. The dinar has lost nearly 12 per cent of its value against the dollar in the past five months and has fallen faster against other major currencies, according to central bank rates.

Rates offered by moneychangers value the dinar around nine per cent lower than the official

CAEU proposes joint research

AMMAN (Petra) — The 16th annual meeting of companies affiliated to the Council of Arab Economic Unity (CAEU) opened in Amman Saturday to discuss coordination among these companies in research projects they are undertaking at present and other contributions to the enhancement of the Arab countries' economies.

Before the representatives of the four companies is a report prepared by the CAEU's secretariat on means of promoting the work of these companies.

The opening session was addressed by the council's Secretary General Hassan Ibrahim in which he pledged that the CAEU and its companies will continue to help bring about economic integration within the Arab World.

Referring to the current economic recession, Ibrahim said that this problem can best be overcome through joint Arab pro-

team formed

AMMAN (Petra) - The first woman racing team in Jordan has been formed under the patronage of Their Majesties King Hussein and Queen Noor.

The team's driver and co-driver respectively are Malia Asfour and Amal Ghandour. Their training supervisors in Jordan are Issa Halaby and Alia Twal.

Asfour and Ghandour have enrolled in a special rally training course in the United Kingdom, who's duration will be from October 15-30, 1988.

Graf scores 'Golden Slam', while Soviets build on invincible lead

SEOUL (AP) — Steffi Graf crowned her tennis Grand Slam with Olympic gold at the summer games Saturday while the Soviet Union piled up victories in soccer, track and field, wrestling, team handball and canoeing to gain an invincible lead in the Seoul medals sweepstakes.

Florence Griffith Joyner, the world's fastest woman, needed help from an American teammate to win her third Olympic title. But her dream of a fourth gold medal vanished in the slipstream of a Soviet world record.

The 15th and penultimate day of the games also saw amazing Kenya pick up three gold medals in rapid succession, including Africa's first in boxing. And a disabled American put a dent into East block Canoeing-Kayak dominance as the summer games rushed toward their grand finale in a hailstorm of medals.

The Soviets had a field day, grabbing 16 medals, 10 of them gold. They capped it off by edging Brazil 2-1 in overtime to win their first Olympic soccer championship in 32 years.

With the games set to end on Sunday night, the Soviet Union had a total of 129 medals, including 54 models. ing 54 golds, followed by East Germany with 37 golds and 101

medals overall. The United States trailed in third place with 34 golds out of a total of 89

Indonesia, in contrast, considered itself a big winner by capturing its first-ever Olympic medal — a silver in women's team

"It is a silver, but for us it is more than a hundred gold medals, it is more than even a gold mine," said Indonesian coach Donald Pandiangan.

Wrestling

Soviet wrestlers won three of four finals at the windup of freestyle competition. They were Sergei Beloglazov at 57 kilogram-mes, Arsen Fadzaev at 68 kilogrammes and David Gobedzhishvili at 130 kilogrammes. The only non-Soviet winner of the night was Han Myung-Woo of South Korea, gold medallist in the 82kilogramme class.

Handball

In handball, the Soviet Union defeated South Korea 32-25, after building up a 17-11 lead at halftime and coasting the rest of the way. Yugoslavia beat Hungary 27-23 to take the bronze.

Judo

Hitoshi Saito won Japan's first gold medal in the men's Olympic judo competition by beating Henry Stochr of East Germany in the 95-kilogramme and over competition. Stochr took the silver.

Cho Yong-Chul of South Korea and Grigory Veritchev of the Soviet Union each received the bronze medal.

Table Tennis

In table tennis finals, China's Chen Jing defeated teammate Li Huifen 21-17, 21-16, 21-23, 15-21, 21-15 to win gold in the women's

Jiao Zhimin of China won the bronze medal with a 21-18, 21-19, 21-17 victory over Marie Hrachova of Czechoslovakia.

Shot put and Discus

Showing East bloc strength in field events, Natalia Lisovskaya of the Soviet Union won gold in the women's shot put with a heave of 22.24 metres, and East Germany's Jurgen Schult broke the Olympic record with his first throw to win the discus gold medal. His toss of 68.82 shattered the 68.28 mark set by Mac Wilkins of the United States in 1976.

Tennis

The men's doubles tennis gold went to Ken Flach and Robert Seguso of the United States who defeated Spaniards Emilio Sanchez and Sergio Casal 6-3, 6-4, 6-7, 6-7, 9-7.

Casal and Sanchez won the silver. Bronze medals went to Wimbledon champion Stefan

Edberg and his Swedish teammate Anders Jarryd, and Czechoslovakia's Milan Srejber and Miloslav Mecir - losers in the semi-finals.

Swimming

The synchronised swimming duet was won by Canada's Carolyn Waldo and Michelle Cameron, the world champions. They beat American sisters Sarah and Karen Josephson 197.717 to 197.284 points. It was Waldo's and Canada's second gold of the games. She also won the solo final on Friday.

Archery

Host South Korea had something to cheer about as both its men's and women's Archery teams won gold.

Field Hockey

Britain defeated West Germany 3-1 for the Olympic field hockey gold medal, while the Netherlands edged Australia 2-1 for the bronze.

Boxing

In Saturday's six boxing finals, East German and U.S. fighters picked up two gold medals each.

Henry Maske, a 24-year-old East German army officer, scored a 5-0 decision over Egerton Marcus in a 75-kilogrammet bout even though he reportedly fought with a broken right hand. His teammate, Andreas Zuelow, jabbed his way to the 60 kilogrammes gold, defeating George Cramne of Sweden.

Ray Mercer, a 27-year-old U.S. army infantryman, won the Olympic heavyweight championship by stopping Baik Hun-Man of South Korea at 2:16 of the first round. Mercer's teammate Kennedy Mckinney outpointed Alexander Hristov of Bulgaria 5-0 for the bantamweight title

Another Bulgarian Hristov -Ivalio - outpointed Michael Carbajal of the United States by the same 5-0 margin for the light flyweight title.

Boxing competition winds up Sunday with finals in the flyweight, featherweight, light welterweight, light middleweight, light heavyweight and super

Water Polo

Yugoslavia scored three goals in overtime for a come-from-behind 9-7 victory over the United States to win the Olympic gold medal in water polo Saturday. The United States gets the sil-

ver medal duplicating the top two finishers from 1984. The Soviet Union took the bronze medal by beating West

Track and Field

on Saturday, denying Florence Griffith-Joyner a record-tying fourth gold medal, while the U.S. men's 1,600-metre squad matched a 20-year-old mark in a

crushing victory. Kenyan runners powered to golds in the men's 1,500 and of Olympic track and field. Paula Ivan of Romania raced away from the field to break the games' record in the women's 1,500 with a winning time of 3 minutes, 53.96 seconds.

The Soviet 1,600 relay women were clocked in 3 minutes, 15.18 seconds. The U.S. four, with Griffith-Joyner running the last leg, also beat the old mark with a time of 3:15.61. East Germany, the pre-race favourite, won the bronze in 3:18.29.

The previous world record of 3:15.92 was set by East Germany in 1984.

Griffith Joyner ran on the U.S. 400-metre relay team that squeaked through to a gold medal ust 40 minutes earlier, leaving her a chance at that point to become the second woman to win four gold medals in a single Olympic track and field competi-

In the men's race, a crack U.S. team with 400-metre world record holder Harry "butch" Reynolds as final runner blazed to a no-contest win in 2:56.16. That tied a mark first set by the American team running in the high altitude of Mexico City in

Jamaica took the silver medal in 3:00.30 and West Germany the bronze in 3:00.56.

the 1968 Olympics.

The Soviet Union triumphed in the men's 400-metre relay, where the U.S. foursome was disqualified Friday for a bad pass of the baton, costing Carl Lewis his chance for a third gold medal. The Soviets were timed in 38.19. Britain won the silver medal in

38.28 and France the bronze in

Christian Schenk of East Germany won the gruelling 10-event competition with a total 8,488 points ahead of teammate Torsten Voss, the world champion. Canada's Dave Steen got the bronze, edging Thompson off the podium by 22 points.
Florence Griffith-Joyner won

the women's 200-metre dash Thursday, twice breaking the world record in the process and establishing herself as the fastest woman on earth. She set a world mark in the 100 last July and has won the gold medal at the games

Jackie Joyner-Kersee bagged her second gold hours earlier with a long-awaited triumph in the women's long jump against top Soviet bloc competition, adding to the win in the heptathlon that confirmed her as the most complete woman athlete around.

On Friday the women's 100metre hurdles final was won by Bulgaria's Jordanka Donkova in 12.38 seconds, breaking the Olympic record of 12.47 she had set in the preliminaries. East Ger-The Soviets set a world record many's Gloria Siebert won silver

Zackiewicz the bronze.

But the 14th day of the games also produced a surprise Western

victory over the East. Louise Ritter, a 30-year-old Texan, upset world record-holder Stefka Kostadinova of Bulgaria to win gold in the women's high jump by clearing 2.03 metres, an Olympic record.

Canada won its first gold medal of the games — again, three days after Canadian sprinter Ben Johnson was stripped of his gold for doping, Carolyn Waldo scored a perfect 10, five 9.9s and 9.8 to defeat Tracie Ruiz-Conforto of the United States in the final of solo synchronised

swimming. Kenyan runners finished onetwo in the 3,000-metre steeplechase. Julius Kariuki earned Kenya its second gold medal of the games, winning in the Olympic record time of 8:05.51. Teammate Peter Koech took the silver and Mark Rowland of Britain the bronze. The old Olympic mark of 8:08.02 was set by Anders Garderud of Sweden in 1976.

Paul retires

Meanwhile state-run television announced that the powerful colonel who controlled the largest and most-feared unit in Haiti's army was retired from his post in the military.

The brief announcement Friday night said Colonel Jean-Claude Paul was retired from the army and his post as commander of the 700-man Dessalines barracks, located directly across from Haiti's presidential palace in Port-au-Prince. It is the largest unit in Haiti's 7,000-member

S. African activist leaves U.S. consulate

JOHANNESBURG (R) — An escaped political detainee walked out of sanctuary at the American consulate in Johannesburg Saturday, leaving behind three colleagues, his lawyer said.

Clifford Ngcobo, one of four black fugitives who took refuge in the U.S. consulate after escaping from police custody last month, left the building without incident at 8.30 a.m., lawyer Azur Cachalia told Reuters.

Cachalia said Ngcobo, who has been reported ill since under going a recent bladder operation, was taken to an undisclosed location for medical treatment.

South Africa's Law and Order Minister Adriaan Vlok last Tuesday offered Ngcobo immunity from detention under the government's 27-month-old state of emergency if he left the sanctuary of the 11th-floor consulate in central Johannesburg.

Vlok gave a similar assurance to the three other dissidents still holed up in the consulate -United Democratic Front activists Murphy Morobe and Mohammad Valli and Vusi Khanyile, leader of a group campaigning for equality in education.

Vlok said, however, that police were still investigating a charge against Ngcobo of illegal possession of a firearm.

"The decision to leave was taken after the minister had informed us that he (Ngcobo) would not be redetained...." his

lawyers said in a statement. Cachalia said Ngcobo, who was detained last April but escaped from police Sept. 22 while receiving treatment at a Johannesburg hospital, still feared that he would be redetained. He is suffering from anorexia and a

WORLD NEWS IN BRIEF

Ruling party wins Sri Lankan poll

COLOMBO (AP) — A ruling party candidate was declared the winner of a provincial council by-election Friday, following the lowest voter turnout in Sri Lankan election, officials said. Election Commissioner Chandrananda de Silva said election for a provincial council seat, held Thursday, was won by M. Tillakaratane of governing United National Party, who received 83 per cent of the vote. But only 14 per cent of the registered voters cast ballots, he said. The turnout is the lowest in Sri Lankan history. where 70 per cent to 80 per cent of the electorate normally vote, the election commission said. A Sinhalese group had called for a boycott of the election to protest last year's signing of a peace accord aimed at ending the five-year-old war by Tamil militants for an independent homeland.

Insight into Kaposi Sarcoma spread

WASHINGTON (AP) — Scientists studying Kaposi's Sarcoma have discovered a substance that gives new insight into how it spreads and might lead to improved treatments for the disease, which is the second-leading cause of death among AIDS victims. Dr. Robert Gallo, head of the National Cancer Institute (NCI). confirmed Thursday that an NCI team has isolated a protein they call "growth factor X" that opens new avenues of research. Moreover, the discovery tends to support a theory that Kaposi's Sarcoma may not be a true malignancy after all, as widely believed since it was discovered by 19th-century dermatologist Dr. Moritz Kaposi. Instead, Gallo said it might be huge, dense clusters of blood vessels and benign cells that only turn malignant in the final

Albania blasts superpowers' actions

UNITED NATIONS (AP) - Albania Friday blamed the superpowers for sowing dissension in the world community even though they concluded arms treaties between themselves. Socialist Albania does not belong to either the Warsaw Pact or the North Atlantic Treaty Organisation (NATO). "Outside the U.N. the two superpowers, the United States and the Soviet Union, reached an agreement on missiles, which they advertised as a new phase in the field of disarmament." said Reis Malile. Albania's foreign minister. "Whereas here in the United States. in a special session of the General Assembly devoted to disarmament, the reasonable voice of the member states about this problem was ignored. "This shows that the superpowers consider the issues of disarmament the exclusive domain of their competence and interests:" Malile told the delegates to the 43rd General Assembly.

Reagan library to be built

VENTURA, California (AP) — A county commission has approved plans for the \$45 million Ronald Reagan library, clearing the way for construction to begin before year's end on the nation's largest presidential library. The Ventura County Planning Commission voted unanimously Thursday to approve plans for construction of the library on a scenic 100-acre site about 56 kilometres northwest of downtown Los Angeles after no opposition to the project surfaced at a public hearing. It is scheduled to be completed

Emperor Hirohito

Hirohito deteriorates

TOKYO (AP) - Emperor Hirohito's condition deteriorated Saturday after he lost a "considerable" amount of blood and his blood pressure dropped sharply for about 30 minutes. imperial officials said. But the emperor's vital signs

stabilised after doctors gave him a large blood transfusion, they

News reports said a Red Cross vehicle carrying blood entered the imperial palace again Saturday evening, but there was no immediate confirmation that the emperor had received another

Imperial Household Agency Spokesman Kenji Maeda said the emperor, the world's longest-reining monarch, discharged "a considerable amount of blood" from his bowels, a larger amount than in the past.

For about 30 minutes in midafternoon, the emperor's blood pressure fell below 100, and doctors administered 600 cubic centimetres of blood, Maeda said.

It was the ninth day in a row that Hirohito has been given blood.

Crown Prince Akihito and Crown Princess Michiko were summoned to the imperial palace and stayed for more than an hour, he said.

Prince Aya, Hirohito's second grandson, who arrived in Tokyo Saturday from London, where he attends Oxford University, also immediately visited the emperor.

Earlier Saturday, the emperor ate food for the first time in nearly two weeks, consuming five or six spoonfuls of a poridge made of arrowroot, an Imperial Agency official said.

IRA families appeal probe verdict

GIBRALTAR (R) — The families of three Irish Republican Army (IRA) guerrillas shot dead by British commandos have called on Dublin to intervene after a Gibraltar inquest decided the kill-

ings were justified. Mairead Farrell, Danny McCann and Sean Savage were pumped with 27 bullets by four members of the elite Special Air Service (SAS) in the British colony March 6.

The 11-man jury decided 9-2 Friday that all three had been lawfully killed — a major victory for British Prime Minister Mar-

"We welcome the finding which speaks for itself," said a British government statement. Lawyer Michael Hucker, representing the SAS men, called it a 'total vindication'.

But the families of the victims said the government had got Court of Human Rights.

The Irish government said it

Emperor's illness sparks rare flash of limelight on his family

By Eugene Moosa Reuter

TOKYO - Whilst the activities of most royal families regularly fill acres of newsprint, Japan's imperial family remains almost anony-

Names like Britain's Charles and Diana, Spain's Juan Carlos or even Monaco's Caroline and Stephanie are easily recognised around the world.

But how many have heard of Aya, Nori. Tomohito and Mikasa? The emperor's illness has brought all of them into the spotlight, some for the first time in years. But a combination of the Japanese flair for self-effacement and

reluctance to say anything newsworthy have combined to ensure that they will not remain there. Palace officials have passed on to reporters the royals' comments after their visits to 87-year-old Hirohito's bedside, but they all seem

to say much the same - that they were reassured by the visit. The same officials have been roundly criticised by government leaders and, increasingly, by Japan's press for their refusal to offer any real information on the illness now threatening the life of the world's longest-reigning monarch.

Unlike most royals around the world, members of Hirohito's family have spent their lives shielded from public scrutiny. They rarely grant audiences and when they do their characters remain blurred behind courtly language that is usually noncommittal and devoid of wit or humour.

Lively quotes for the newspapers are unheard of. "I hope you will do the best," is a favourite of the royal family when meeting an honoured subject.

The majority of the imperial clan, known as the Kozoku, are

British-educated princes and princesses whose main roles are to support cultural, diplomatic and welfare societies. In many foreign countries where royalty are respected, members of our imperial family have a key role as non-political diplomats," one foreign ministry official said, "They are a definite

Their expenses, which totalled some three billion yen (\$22

million) last year, are paid by the government.

The imperial family numbers about 20, including the 85-year-old wheelchair-bound empress Nagako who is widely believed to be sinking into senility. Hirohito's 54-year-old heir, Crown Prince Akihito, is a fluent English speaker who has made it clear that he will try to blow some of the cobwebs from the palace corridors when he eventually

mounts the Chrysanthemum throne. Akihito's son, 28-year-old Prince Hiro, was at one time the object of what little press attention there has been. That was when magazines politely speculated about marriage partners. Oxford-educated Hiro will be known as Crown Prince Naruhito when his father becomes Japan's 125th tenno. or heavenly sovereign. His hobbies include mountaineering.

Prince Aya, 22, the tall younger brother of Prince Hiro, studies biology at Oxford University in England and heads Japan's World Wildlife Fund chapter.

Their 19-year-old sister Princess Nori like training dogs and has visited schools for guide dogs in several countries. Prince Hitachi, 52, Akihito's younger brother, and his wife Hanako have travelled widely as envoys. He is known for his cancer research and has published a number of papers on cancer in

Hirohito and Nagako also had five daughters, two of whom are dead. The rest married into lesser aristocratic families. Two of Hirohito's younger brothers, Chichibu and Takamatsu.

are dead but another brother Prince Mikasa, 74, is known as a Middle East scholar. One of the very few members of the family who could be called at all rebellious is Mikasa's first son Prince Tomohito, now 42 and

known as the bearded prince. He once said he would like to quit the cloistered world of the imperial family but he was quickly silenced by his relatives. He shaved his beard and became chairman of the Japan-Norway

3,500-year-old figurine unearthed

ATHENS (AP) — Archaeologists sifting through tonnes of dis-carded earth at a dig on Crete have found more fragments of a unique gold-and-ivory figurine already acclaimed as a masterpiece of Minoan sculpture. The vory torso and arms of a young man were unearthed last year, partly burned in a fire that swept through a prehistoric town at Palaikastro on the island's eastern coast around 1,450 B.C. This summer, the excavators recovered more than 100 new fragments, including shreds of gold leaf from the figure's clothing, two finely modeled ivory feet, an ivory ear, and - most surprising of all - a stone head that they think would have fitted the missing ivory face at the hairline. "It's the figure of a young god," Sandy MacGillivray, co-director of the excavation, said in an interview Friday. "It's the most important Minoah sculpture ever found, and we want to recover as much of it as we possibly can.

Homeless serve eviction notice

WASHINGTON (AP) — Activ-

ists for homeless people served a homemade "eviction notice" on the office of North Carolina Senator Jesse Helms Friday, removed the furniture from his outer office and were led off in handcuffs. "Ooohhh, this chair feels good." chortled a homeless man identified as Lou Juluke, 56. settling into a brown leather upholstered, brass-studded chair in the middle of an upstairs hallway. Minutes later, a team of Capital Hill civil disobedience specialists in blue sleeveless sweaters, baseball-style caps and disposable rubber gloves moved in and arrested three other demonstrators who had removed the furniture. The demonstrators said Helms voted for budget cuts that left thousands of people unable to afford housing and deserved a symbolic taste of his own medi-

'Dutch' Reagan back on airwaves

CHICAGO (R) - "Dutch" Reagan was back on the airwaves Friday, commentating on a baseball game just as smoothly as he did before he became famous at things like movies and politics. President Reagan dropped into the press box at Wrigley Field during a Chicago visit and helped announce a Chicago Cubs-Pittsburgh Pirates game for one inning. His appearance with the Cubs broadcast team was also piped out live by a national television news station so that a nationwide cable audience got to hear how Reagan handled play-byplay developments. And there goes a ball down over second base and it's a hit out into centre field one run is in' the stand-in announcer said. He got a lot of practice at this sort of thing as a young baseball announcer known as 'Dutch' Reagan on WHO radio in Des Moines, Iowa, in the 1930s. From there, Hollywood beckoned.

Astronauts favourite foods, drink

EDWARDS AIR BASE, California (R) — The five astronauts on board the the space shuttle Discovery are eating their way round the world on such exotic dishes as beef almondine, shrimp creole and Turkey tetrazzini. But the most requested item on the global menu is black coffee. NASA revealed Friday what the astronauts are eating in orbit. Most meals come dry, and the astronauts add water. David Hilmers, a mission specialist, ate turkey tetrazzini Friday and has ordered teriyaki chicken for Saturday. Another specialist, George Pinky Nelson, is having a breakfast of Mexican scrambled eggs. a spicy version of plain scrambled eggs, each day. He starts all his dinners with shrimp cocktail. Mission specialist John Lounge is a pudding freak. He is eating his way through chocolate pudding, vanilla pudding and butterscotch pudding

Community battles to save whales

AUGUSTA, Australia (AP) -Housewives, fishermen and conservation officers worked frantically early Friday to save 39 whales stranded on a remote beach on the west coast of Australia. They said 21 of the beached mammals had already died near Augusta, 240 kilometres south of Perth in westem Australia. The volunteers and others, numbering about 100, stroked the creatures and kept them moistened and upright through the night to calm them and keep them from drying out or drowning.
